

AqBanking - Bug #166

"make" fails, since .42

25.11.2019 18:39 - AndreasFilsinger

Status:	Rejected	Beginn:	25.11.2019
Priorität:	Normal	Abgabedatum:	
Kategorie:	AqBanking	Anwendung:	aqbanking-cli
Betriebssystem:	Linux	Version der Anwendung:	
AqBanking-Version:	5.99.42.0beta		
Beschreibung to reproduce: <pre>git clone -b 5.99.42beta --single-branch --depth 1 https://git.aquamaniac.de/git/aqbanking cd aqbanking ACLOCAL_FLAGS="-I /usr/share/aclocal" make -f Makefile.cvs ./configure --with-backends="aqhbc" make make[5]: Entering directory '/root/aqbanking/src/libs/aqbanking/types' make[5]: *** No rule to make target 'transaction.c', needed by 'transaction.lo'. Stop. (.41 and older is OK) .43, .44, "master" fails.</pre>

Historie

#1 - 25.11.2019 18:43 - AndreasFilsinger

- Beziehung mit Bug #155: Aqbanking cannot be build from git with out-of-source build directory wurde hinzugefügt

#2 - 25.11.2019 20:25 - martin

- Status wurde von New zu Rejected geändert

Please see "README" within the sources, especially chapter "5.2: Building from GIT".

The commands listed there are:

```
make -fMakefile.cvs  
make typedefs  
make types
```

After that "make" should do the trick.

Regards
Martin
