

AqBanking - Bug #236

"Signer not found" on Window

17.04.2021 21:01 - rhabacker

Status:	Closed	Beginn:	17.04.2021
Priorität:	Normal	Abgabedatum:	
Kategorie:		Anwendung:	KMyMoney
Betriebssystem:	Windows	Version der Anwendung:	6.2.10
AqBanking-Version:	6.2.10		

Beschreibung

With mentioned version I got a "signer not found" message when trying to update a paypal account from within kmymoney.

The appended patch fixes that issue, by not excluding the search for bundled certificates if --enable-system-certs=no has been specified on configure command line.

Hi,
Is there anything in the way of this patch to be added to the next version ?

#2 - 02.07.2021 16:03 - martin

- Status wurde von New zu Resolved geändert

Thanks, included in GIT now (sorry, no time until now).

#3 - 11.09.2021 16:00 - martin

- Status wurde von Resolved zu Closed geändert
