

AqBanking - Feature #284

[PATCH] Use pkg-config to find libgcrypt, gpg-error

26.08.2022 00:07 - wrobelda

Status:	New	Beginn:	26.08.2022
Priorität:	Normal	Abgabedatum:	
Zugewiesen an:		% erledigt:	0%
Kategorie:	Gwenhywfar	Geschätzter Aufwand:	0:00 Stunde
Zielversion:		Anwendung:	andere
Betriebssystem:	andere	Version der Anwendung:	
AqBanking-Version:	5.10.1		
Beschreibung Any relatively modern version of libgcrypt and gpg-error come with a .pc file, so I think it's safe to assume that next release of gwenhywfar would be build against such. Note that this depends on the https://www.aquamaniac.de/rdm/issues/283 patch (not for functionality but for the diff to match the code)
