

AqBanking - Bug #323

aqbanking-cli: No command line option to query the configuration directory

16.11.2025 20:43 - rhabacker

Status:	New	Beginn:	16.11.2025
Priorität:	Normal	Abgabedatum:	
Kategorie:	AqBanking	Anwendung:	aqbanking-cli
Betriebssystem:	FreeBSD, Linux, MacOSX, Windows	Version der Anwendung:	6.7.7
AqBanking-Version:	6.7.7.0		
Beschreibung In a ticket reported for the kmymoney application, a user did not know where to find the configuration directory for aqbanking. Since there is currently no command line option for this in aqbanking-cli, this commit adds a corresponding option --listconfdir. This commit is preceded by a cleanup of the management of arguments in command line tools to avoid additional code duplication.
