

AqBanking - Bug #96

Fix cmake support on Windows

03.10.2019 13:51 - martin

Status:	Closed	Beginn:	24.09.2019
Priorität:	High	Abgabedatum:	
Kategorie:	Gwenhywfar	Anwendung:	
Betriebssystem:		Version der Anwendung:	
AqBanking-Version:			
Beschreibung			
Beside https://www.aquamaniac.de/rdm/issues/27 additional cmake related config files are broken on Windows and will be fixed by applying the appended patches.			
Without this patch building cmake based client packages depending on gwenhywfar on Windows will not be possible.
